EXPERIENCE

Vice President, HR Operations (Head of HR & Recruiting, Canada)
G6 Technologies Canada Limited, Toronto, ON | Mar 2024 – Present

- Proposed, scoped and launched an in-house candidate-tracking system when a commercial ATS was out of budget; wrote requirements, ran user acceptance testing and led rollout. Cut client submission time from 24 hours to 2 and company-wide turnaround from 3 days to 1; used daily by 15 people.
- Standardized onboarding with a state-by-state form library and checklist, supported HRIS testing and compliance checks, and reduced duplicate and expired form errors by about 75%.
- Serve as Ceipal system administrator: configuration, integrations, vendor relationship, company-wide user training and weekly executive reporting.
- Manage payroll calculation, tax coordination, benefits sourcing and statutory compliance for up to 50 employees and contractors across Canada and the US.
- Lead a 12-person talent acquisition team: allocate requisitions by capacity, built the monthly recruiter performance scorecard reported to the COO, approve leave and resolve employee relations issues.
- Personally deliver about 40 hires a year, with first qualified submissions in 2 to 48 hours depending on role complexity.
- Act as the COO's main operational partner: source and negotiate with employment-law and licensing vendors; manage MSAs, SOWs and purchase orders.
- Use AI (Claude) daily as an HR co-pilot: first drafts of employment and equipment agreements, first-pass MSA review, payroll and funds tracking dashboards, leadership reports and job descriptions. Every output is human-reviewed; legal questions go to counsel.

Senior Talent Acquisition Advisor
Levio, Toronto, ON | Feb 2022 – Feb 2024

- Led full-cycle recruitment for professional and technology roles across Canada, including senior and specialized searches.
